Managing Health and Safety in the
Workplace

A group of four smiling business professionals in an office setting. A woman in a black top and necklace is in the foreground, looking towards the camera. Behind her are three other people (two men and one woman) in white shirts, looking towards the right. The background is a bright, modern office space.

Managing Health and Safety in the Workplace

REF: C615 DATE: 25 - 29 November 2024 Venue: London (UK) - Landmark Office Space Fee: 5850 Euro

Introduction:

Health and Safety in the Workplace provide those in managerial and supervisory positions with appropriate knowledge and understanding of the issues involved. You will learn how to reduce costs and improve profits with effective safety management

Health and safety technology and procedures are very important aspects of health and safety management. However, on their own, these will not provide continuous improvement in health and safety performance. It is necessary to have personnel with a sound understanding of the areas that can give rise to losses. The conference covers all the basic areas of Safety in the Workplace such as Safety Management, Safety Culture, Workplace Equipment, Hazardous agents, and Legislation

Conference Objectives:

At the end of this conference the participants will be able to:

- Define the sources of harmful acts.
- Understand and accept that safety is a function whereby everyone is responsible.
- Establish that accidental injuries are caused by unsafe acts, behavior, and conditions.
- Perform job safety analysis and give job safety instructions.
- Conduct an accident investigation and fill a meaningful accident report.
- Handle and react to various work accidents and emergencies.

Targeted Audience:

- Managers, supervisors and safety professionals who wish to improve their skills and competencies to be able to assume their safety responsibilities and effectively carry out their tasks safely in their organization
