Essentials of Stakeholder Management

REF: M2096 DATE: 11 - 15 November 2024 Venue: London (UK) - Landmark Office Space Fee: 5300 Euro

Introduction:

The Essentials of Stakeholder Management training program is a comprehensive initiative focused on equipping participants with the fundamental skills and knowledge necessary to effectively identify, analyze, and engage stakeholders. Through a combination of theoretical insights, practical exercises, and case studies, participants learn how to navigate complex stakeholder landscapes and build productive relationships.

Program Objectives:

At the end of this program, participants will be able to:

- Recognize the characteristics of effective stakeholder management.
- Determine their approach to managing stakeholders and the requirements of their clientele.
- Recognize strategies for gaining stakeholder consent.
- Differentiate between the 6 persuasive techniques.
- List many ways to create a lasting relationship.
- Improve your awareness of your own preferences, behaviors, and working methods.
- Create a method for evaluating other people's preferences, behaviors, and working methods.
- Learn to create productive working connections using your knowledge and understanding.
- Think about your current stakeholder relationships and what you could do to strengthen them.

Targeted Audience:

- Project Managers seeking to enhance stakeholder engagement.
- Business Analysts involved in stakeholder analysis.
- Executives responsible for stakeholder communication and relationship management.
- Team Leaders aiming to improve collaboration with stakeholders.

Program Outline:
