Introduction:

A Corporate Social Responsibility CSR program is a strategic initiative undertaken by businesses to contribute positively to society and the environment. It involves integrating social and environmental concerns into the company's operations and interactions with stakeholders. Through CSR, organizations aim to make a meaningful impact beyond profit generation by addressing societal challenges and promoting sustainable practices.

Program Objectives:

At the end of this program the participants will be able to:

- Establish a CSR management system: create necessary policies, operational action plans, and reporting mechanisms for these activities that span all CSR themes. Ensure that policies are defined, resources allocated to create and execute action plans to implement the policies, and track and report on KPIs and results.
- Ensuring top management's commitment, most especially the CEO is communicated across the whole company.
- Create the role of CSR expert to a decision-making level to manage policy development and implementation.
- Development of relationships with all stakeholders Shareholders, employees, NGOs, partners, customers, etc.
- Integrate into regular reporting e.g. annual reports
