

# € TRAINING

Supply Chain Risk Management

A group of four smiling business professionals (two men and two women) are seated at a table in a meeting room. They are all wearing white shirts. The woman in the foreground is wearing a black top and a multi-strand necklace. The background is blurred, showing a modern office environment with large windows.

Amsterdam (Netherlands)

# Supply Chain Risk Management

REF: C571 DATE: 16 - 20 December 2024 Venue: Amsterdam (Netherlands) - Fee: 6145 Euro

## Introduction:

Effective supply chain professionals need to be able to ensure their organizations become industry pacesetters, by better managing their supply chains to achieve reduced costs, whilst at the same time, improving service levels.

However, global trade has brought about proportionally high levels of risk and uncertainty. In turn, this uncertainty creates a risk spiral that is accompanied by increased cost and reduced levels of service. Risk is found in all supply chains, but with analysis, preparation, and action, these risks can be avoided, managed, or deflected.

Smart organizations must, therefore, find ways to manage risk, uncertainty, and variability and at the same time, look to reduce cost and improve service.

## Conference Objectives:

At the end of this conference the participants will be able to:

- Apply a thorough understanding of supply chain activities
- Identify, analyze and evaluate supply chain risk
- Understand the keys aspects in reducing risk
- Use risk management tools and techniques
- Make supply chain organizational improvements
- Understand the current supply chains
- Access them for risk and vulnerability
- Examine how to mitigate risks
- Apply appropriate tools
- Make continual improvements

## Targeted Audience:

- Risk Managers
- Supply Chain Managers
- Operation Managers
- Project Managers
- Finance Managers
- IT Managers
- Plant Managers
- Production Planners
- HR Managers
- Logistics Managers
- Business Improvement Specialists
- Consultants

## Conference Outlines:

### Unit 1: Understanding The Supply Chain:
