Effective Supply Chain Management

REF: L1326 DATE: 17 - 21 November 2024 Venue: Cairo (Egypt) - Fee: 4095 Euro

Introduction:

This training program is designed to provide participants with comprehensive knowledge and practical skills to manage and optimize supply chains effectively. It empowers them to lead supply chain initiatives that drive organizational success.

Program Objectives:

At the end of this training program, participants will be able to:

- Understand the key concepts and principles of effective supply chain management.
- Develop strategies to optimize supply chain operations and enhance efficiency.
- Implement advanced technologies and tools for supply chain management.
- Manage supplier relationships and mitigate supply chain risks.
- Apply best practices for sustainable and resilient supply chain operations.
- Improve coordination and collaboration across the supply chain.

Targeted Audience:

- Supply chain managers and supervisors.
- Operations managers and logistics professionals.
- Procurement and sourcing specialists.
- Inventory and warehouse managers.
- Business owners and managers involved in supply chain decisions.
- Professionals seeking to enhance their supply chain management skills.

Program Outline:
