Strategic Purchasing & Supply Management

A group of four smiling business professionals (three men and one woman) are seated at a table in a meeting room. They are all wearing white shirts. The woman in the foreground is wearing a black top and a multi-strand necklace. The background is a bright, modern office environment.

Strategic Purchasing & Supply Management

REF: C570 DATE: 12 - 16 August 2024 Venue: Casablanca (Morocco) - New Hotel Fee: 4290 Euro

Introduction:

The development and implementation of carefully crafted strategies for the acquisition of all goods, parts, equipment, and services have become a critical issue in all organizations wishing to reduce operating costs while improving quality and productivity. This program explores key concepts of Strategic Cost/Price Analysis, Value Analysis, and Total Cost of Ownership that will move today's supply management organization from its typical tactical focus to the strategic focus needed to successfully implement the processes and methods needed to reach world-class performance.

Conference Objectives:

At the end of this conference the participants will be able to:

- Analyze the elements of cost in supplier's price
- Understand differences in international labor rates
- Evaluate supplier's different pricing models & analyze supplier's price breakdowns
- Understand the methods of price and cost analysis
- Create an approach to implementing TCO analysis

Targeted Audience:

- Purchasing, Procurement, Contracts, Contract Administration, Projects personnel
- All others who are involved in the planning, evaluation, preparation, and management of purchasing and contracts that cover the acquisition of materials, parts, equipment, and services, and who are in organizations whose leadership want high levels of excellence in those involved in these activities
