EPCIC Contract Management in Offshore
and Marine

A group of four smiling professionals, two men and two women, are seated around a table in a meeting. They are all wearing white shirts. The woman in the foreground is wearing a black top and a multi-strand necklace. The background is a bright, modern office setting with large windows.

10 - 14 November 2024
Cairo (Egypt)

EPCIC Contract Management in Offshore and Marine

REF: U845 DATE: 10 - 14 November 2024 Venue: Cairo (Egypt) - Fee: 3520 Euro

Introduction:

This training program equips participants with specialized knowledge and skills essential for managing Engineering, Procurement, Construction, Installation, and Commissioning EPCIC contracts in the offshore and marine industry. It empowers them to navigate the complexities of EPCIC contracts, mitigate risks, and ensure project success.

Program Objectives:

At the end of this program, participants will be able to:

- Understand the unique aspects of EPCIC contracts in the offshore and marine industry.
- Develop skills for effective contract administration and management throughout the project lifecycle.
- Learn strategies for risk management and dispute resolution in EPCIC contracts.
- Gain insights into the roles and responsibilities of stakeholders involved in offshore projects.
- Enhance project outcomes by applying best practices in EPCIC contract management.

Targeted Audience:

- Project Managers.
- Contract Administrators.
- Engineering Professionals.
- Procurement Specialists.
- Marine Industry Experts.
- Offshore Operations Managers.

Program Outline:

Unit 1:

Introduction to EPCIC Contracts

- Overview of EPCIC contracts and their significance in the offshore and marine industry.
