Leading & Managing through Strategic Planning & Innovation: Developing Deliverable Strategies

REF: ST9 DATE: 25 November - 6 December 2024 Venue: Singapore - Fee: 9490 Euro

Introduction:

Effective strategic leadership is primary to the future success of any organization. This starts with defining a clear strategic vision - setting out the leadership team's strategic intent for the organization and its various businesses. This then needs to be translated into an agenda for action - not merely a "strategic plan" but a set of guidelines or a road map setting out where the business needs to go and empowering managers at all levels to make the multitude of decisions that they need to make in the clear understanding of where the business is heading.

In this course, both strategic leaders and first-line professionals will participate in how to develop, implement and structure the changes necessary to make a new strategy, vision or mission work efficiently in today's dynamic environment. It will focus on the development of the core strategies and plan to make the organization reach its vision or targets, and then will drills deeper into the organization to develop techniques that get the workforce "on-board" with the changes and have them participate in working out the problems and implementing the new strategies.

Course Objectives:

At the end of this course the participants will be able to:

- Enhance and improve their own and their organization's strategic thinking and ability to envision powerful strategic futures.
- Identify crucial strategic issues and opportunities.
- Lead and motivate teams and businesses in diverse, turbulent, and complex environments.
- Motivate people towards the strategic "light on the hill"!
- Change their environment to support your new strategic initiatives.
- Implement a plan using all the resources at their disposal.
- Identify the competencies and capabilities of strategically agile and effective organizations
- Develop a culture or climate that supports your initiatives
