Strategic Management in Banking

A group of four smiling business professionals (three men and one woman) in a meeting. The woman in the foreground is wearing a black top and a multi-strand necklace. The men are wearing white shirts. They are all looking towards the camera with pleasant expressions. The background is a blurred office setting.

Strategic Management in Banking

REF: ST1916 DATE: 8 - 12 December 2024 Venue: Manama (Bahrain) - Fraser Suites Seef Bahrain Fee: 4925 Euro

Introduction:

This course offers a methodical approach for developing and communicating a bank's strategy.

The course explains the tools and analytical approaches that can be used to develop a future strategy based on a thorough understanding of the bank's capabilities and the macroeconomic and market environment in which it operates. It also covers all of the key processes in the creation of strategy. It needs both strong analysis and innovative thought to develop a strategy.

The course pushes participants to make sure that the plan they create is supported by evidence while also giving them the freedom to "think outside the box" in order to come up with market-beating and novel methods. It also makes suggestions on how the strategy might be articulated and delivered effectively to compel top management and staff support.

Course Objectives:

At the end of this course, the participants will learn about:

- Understand the strategic management process in the banking industry
- Learn key concepts and techniques used in the development and implementation of strategic plans
- Understand how to manage organizational resources and performance
- Develop the ability to analyze and evaluate the external environment of a bank
- Gain an understanding of how to develop and implement effective strategies in a bank
