Climate Finance, Climate Change Resilience,
and Application to PPP Projects

A group of four smiling professionals (two men and two women) in a meeting setting, wearing white shirts. The image is partially obscured by a large blue curved graphic element that sweeps across the top and right sides of the page.

2 - 6 December 2024
Rome (Italy)

Climate Finance, Climate Change Resilience, and Application to PPP Projects

REF: F1653 DATE: 2 - 6 December 2024 Venue: Rome (Italy) - Fee: 5940 Euro

Introduction:

Climate Finance is a training course for government officials from the ministries of finance, planning, and the environment. The goal of the training was to improve the government's ability to manage climate funding better. Participants received instruction on how to obtain, mobilize, and distribute international and domestic climate financing.

Course Objectives:

At the end of this course the participants will be able to:

- Climate finance definitions and sources
- Climate financing and development finance
- Climate change policy responses at the international and national levels
- National climate finance: channels, on-budget, off-budget
- Budget analysis tools
- International climate finance
- Subnational climate finance
- Public-private climate finance

Target Audience

- GCF direct access entities DAEs, organizations interested in or currently in the process of accreditation for GCF;
- Experts in ministries or public bodies working in areas related to the environment, finance, or specific sectors;
- Private sector entities, especially financial institutions;
- Non-governmental bodies, and civil society organizations are interested in climate finance.
