Global Trends in Early Childhood Development and Protection

REF: Z2562 DATE: 27 - 31 October 2024 Venue: Dubai (UAE) - Fee: 4400 Euro

Introduction:

This training program is designed to provide participants with a comprehensive understanding of the current trends, challenges, and best practices in early childhood development and protection worldwide. It covers the critical elements that influence the well-being and development of young children, including policy frameworks, educational strategies, health and nutrition, and child protection mechanisms. Participants will gain insights into effective approaches and strategies to support and protect children during their formative years.

Program Objectives:

At the end of this program, participants will be able to:

- Understand the global trends and key issues in early childhood development and protection.
- Identify effective policies and practices that promote holistic development in early childhood.
- Implement strategies to improve health, nutrition, and education outcomes for young children.
- Recognize and address the various forms of child abuse and neglect.
- Advocate for and contribute to policy development and implementation to support early childhood development and protection.

Targeted Audience:

- Early Childhood Educators and Caregivers.
- Child Protection Officers.
- Social Workers.
- Policy Makers and Government Officials.
- NGO and Non-Profit Organization Staff.
- Health Professionals working with children.

Program Outlines:
