

€ TRAINING

Pensions Management within Socio
Economic Systems

A group of four smiling professionals (two men and two women) in a meeting. They are wearing white shirts and are seated around a table. The background is blurred, suggesting an office or conference room setting. A large blue curved graphic element is overlaid on the top and right sides of the image.

5 - 9 May 2025
Barcelona (Spain)

Pensions Management within Socio Economic Systems

REF: M2625 DATE: 5 - 9 May 2025 Venue: Barcelona (Spain) - Fee: 5565 Euro

Introduction:

This training program provides participants with a comprehensive understanding of pension management in the context of socio-economic systems. This program emphasizes the principles, policies, and practices essential for effective pensions management, addressing socio-economic challenges and regulatory environments. It empowers them to make informed decisions and optimize pension fund performance.

Program Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of pensions management and its importance in socio-economic systems.
- Analyze different pension schemes and their impact on individuals and society.
- Develop skills to manage pension funds effectively, ensuring sustainability and compliance.
- Assess socio-economic factors influencing pensions and retirement planning.
- Enhance leadership and decision-making skills in pensions management.
