International Public Sector Accounting
Standards IPSAS

A group of four smiling professionals (two men and two women) in a meeting setting. They are wearing white shirts. The woman in the foreground is wearing a black top and a multi-strand necklace. The background is blurred, showing a modern office environment.

13 - 17 January 2025
Madrid (Spain)

International Public Sector Accounting Standards IPSAS

REF: F1618 DATE: 13 - 17 January 2025 Venue: Madrid (Spain) - Fee: 5300 Euro

Introduction:

This training program on IPSAS provides a comprehensive framework tailored to meet the diverse needs of government agencies, municipalities, and public organizations worldwide. Through it, participants will delve into the core principles and practices of IPSAS, gaining invaluable insights into how to enhance financial reporting accuracy and reliability.

Program Objectives:

By the end of this program, participants will be able to:

- Grasp the basics of IPSAS and its global relevance in public sector accounting.
- Prepare IPSAS-compliant financial statements with proper asset, liability, and revenue recognition.
- Implement IPSAS standards in public sector organizations, overcoming transition challenges.
- Align budgeting practices with IPSAS, improving financial reporting and control.
- Apply IPSAS principles in financial management, supported by case studies for best practices.

Targeted Audience:

- Government officials responsible for financial management.
- Accounting professionals working in public sector organizations.
- Financial managers in municipalities and public agencies.
- Auditors and compliance officers in public sector entities.

Program Outlines:

Unit 1:

Introduction to IPSAS:

- Overview of IPSAS and its importance in public sector accounting.
- Historical background and global adoption of IPSAS.
- Fundamental principles and concepts underlying IPSAS.

- Structure and framework of IPSAS standards.
- Significance of IPSAS compliance for public sector entities.
