Economic Impact Analysis and Strategy

REF: ST2809 DATE: 15 - 19 June 2025 Venue: Sharm El-Sheikh (Egypt) - Fee: 3520 Euro

Introduction:

This training program focuses on analyzing the economic impact of decisions made by governments, businesses, and other institutions, helping participants to quantify effects on employment, production, consumption, and the broader economy. By exploring different economic models, participants will gain valuable insights into the short- and long-term consequences of economic choices.

Program Objectives:

By the end of this program, participants will be able to:

- Understand key concepts and frameworks related to economic impact assessment.
- Develop skills to measure and analyze economic activities and their repercussions on sectors and communities.
- Use economic data to forecast impacts and guide strategic decisions.
- Assess the economic impact of policies, investments, and projects.
- Enhance their ability to communicate economic findings to stakeholders.

Target Audience:

- Mid-level professionals in government agencies.
- Financial and economic analysts.
- Policy advisors and economic planners.
- NGO and international organization professionals.
