Mastering Financial Reporting and Advanced Statement Analysis

REF: F2789 DATE: 20 - 24 January 2025 Venue: Baku (Azerbaijan) - Fee: 5750 Euro

Introduction:

This program is designed for professionals seeking to deepen their expertise in financial reporting and statement preparation. Through it, participants will gain a comprehensive understanding of advanced accounting principles, financial statement analysis, and regulatory frameworks. It equips financial professionals with the skills to prepare detailed financial reports that meet international standards and support strategic decision-making within their organizations.

Program Objectives:

By the end of this program, participants will be able to:

- Apply advanced accounting principles to complex financial transactions.
- Prepare consolidated financial statements in accordance with international financial reporting standards IFRS.
- Analyze financial statements to provide insights for strategic business decisions.
- Implement advanced financial reporting techniques to enhance transparency and accuracy.
- Evaluate the impact of regulatory changes on financial reporting.

Target Audience:

- Senior accountants.
- Financial analysts.
- Finance managers.
- Auditors.
- Financial controllers.
- CFOs and finance executives.

Program Outlines:

Unit 1:

Advanced Accounting Principles:

- Complex revenue recognition.
- Lease accounting under IFRS 16.
- Financial instruments: classification and measurement.
