

€ TRAINING

ISO 22301 Lead Implementer

A group of four smiling business professionals (two men and two women) are seated at a table in a meeting room. They are all wearing white shirts. The woman in the foreground is wearing a black top and a multi-strand necklace. The background is a bright, modern office environment.

13 - 17 April 2025
Cairo (Egypt)

ISO 22301 Lead Implementer

REF: M1973 DATE: 13 - 17 April 2025 Venue: Cairo (Egypt) - Fee: 3520 Euro

Introduction:

Having a BCMS based on ISO 22301 in place can help organizations understand and manage risks, accidents, and disasters. As a result, this training program enhances participants to construct a business continuity management system BCMS that complies with ISO 22301's criteria. By taking this training, participants develop a framework that enables the organization to continue functioning effectively during disruptive events and obtain a thorough understanding of the best practices of the business continuity management system.

Program Objectives:

At the end of this program, participants will be able to:

- Give an explanation of the core ideas and guidelines of a business continuity management system BCMS based on ISO 22301.
- Read the ISO 22301 specifications for a BCMS from the implementer's point of view.
- Implement a BCMS based on ISO 22301 by starting the process and planning it using IMS2 Methodology and other best practices.
- Assist a business in running, maintaining, and enhancing a BCMS based on ISO 22301.
- Get a company ready for a third-party certification assessment.
- Prepare for the ISO 22301 certification exam, then apply for a "Certified ISO 22301 Lead Implementer" credential upon successful completion of the exam.

Targeted Audience:

- Project managers and business continuity consultants.
- Experts with extensive experience attempting to develop a business continuity management system.
- Employees in an organization who are in charge of maintaining compliance with BCMS requirements.
- Team members of the BCMS.
