Kuala Lumpur (Malaysia)

Comprehensive Internal Controls and Compliance Management

REF: BV2206 DATE: 16 - 20 September 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5300 Euro

Introduction:

This training program provides a comprehensive exploration of internal controls, focusing on their purpose, compliance requirements, and implementation across various business cycles. It covers essential aspects such as safeguarding data, managing financial and administrative controls, and integrating technology and human elements into control systems. Participants will gain insights into effective strategies for ensuring regulatory adherence and enhancing organizational efficiency.

Program Objectives:

At the end of this program, participants will be able to:

- Implement controls in the accounting processes.
- Assign functions and roles within the accounting department to maximize controls while optimizing performance.
- Assist in designing corporate business cycles to achieve better controls.
- Achieve segregation of duties and internal controls in the accounting department and related functions.
- Increase reliability on processes and decrease the likelihood of fraud through the organization.
- Comply with external reporting requirements by governmental and semi-governmental authorities.
- Develop operational policies and procedures in accordance with internal control requirement.
- Design and maintain financial controls.

Targeted Audience:

- Project contracts, tenders, purchases, and procurement personnel.
- Personnel involved in contract administration, engineering, operations, and maintenance.
- Personnel for Risk, Claims, Finance, and Audit.
- Professionals in project management.
- Professionals who work for companies whose leaders demand high levels of proficiency from individuals engaged in these activities as well as those who plan, evaluate, prepare, and manage tenders, specifications, awards, and contracts that cover the procurement of materials, equipment, and services.
