Strategic Healthcare Management

A group of four smiling professionals (three men and one woman) in a meeting room. The woman in the foreground is wearing a black top and a multi-strand necklace. The men are wearing white shirts. They are sitting around a table with papers and a laptop. The background is a bright, modern office space.

2 - 6 December 2024
Kuala Lumpur (Malaysia)

Strategic Healthcare Management

REF: S1274 DATE: 2 - 6 December 2024 Venue: Kuala Lumpur (Malaysia) - Fee: 5850 Euro

Introduction:

This training program offers a comprehensive curriculum designed to equip healthcare professionals with the knowledge and skills necessary to navigate the complex landscape of healthcare management. Through it, participants are empowered to make informed decisions, lead organizational change, and drive improvements in healthcare delivery and outcomes.

Program Objectives:

At the end of this program, participants will be able to:

- Implement patient-focused strategies, including strategic planning, across the organization.
- Leverage executive decision-making tools and formal methods to assess healthcare plans in light of regulations and ever-changing needs in the market.
- Lead and manage complex organizations in crisis management while optimizing quality and safety best practices.
- Foster creativity throughout a department or organization.
- Apply leadership capabilities to lead healthcare teams and projects to success.

Targeted Audience:

- Healthcare administrators and managers seeking to enhance their strategic management skills.
- Healthcare executives responsible for organizational planning and decision-making.
- Clinical leaders transitioning into managerial roles within healthcare organizations.
- Professionals aspiring to advance their careers in healthcare management and leadership positions.
- Individuals involved in healthcare policy development and regulatory compliance.
